

The image features a high-contrast, black and white silhouette of a muscular man in a dynamic, forward-leaning pose, possibly a fighter or a protector. He is the central figure, with his back to the viewer and slightly turned. To his left, a smaller silhouette of a man is visible, appearing to be in a defensive or cowering position. The background is a bright, hazy light source, creating a strong glow and lens flare effects. The overall mood is dramatic and powerful.

IT'S ALL  
OVER FOR  
BULLIES.

# IT'S ALL OVER FOR **BULLIES.**

The school bully has always been with us. As familiar a figure to our great grandparents as to our children. Recently, however, the school bully has stepped into the national spotlight, catching the attention of parents, the media, and the Federal Government. Suddenly we're waking up to the harm a bully can inflict on our children's education, self-esteem and safety.

Bullying at school creates an atmosphere that defeats the purpose of education. Children can't learn in a classroom that's full of fear. They can't enjoy recess on a schoolyard that isn't safe, and can't even evade the bully on their way home because the bully rides the school bus, too.

To overcome this hostile influence, educators need to learn some new lessons.

The Guardian Angels Alliance for Education is the preeminent source for this specialized instruction. The Guardian Angels' Anti-Bullying Workshop provides educators with results-oriented strategies to help identify and neutralize bullying behavior wherever it occurs in the child's educational environment.

The Workshop places special emphasis on peer group involvement and responsibility. Educators learn how to teach their students non-confrontational methods to defend themselves from intimidation and harassment. At the same time, workshop participants will learn how to deal with kids who bully, enabling them to help these children comprehend and control their own destructive behavior.

SOME OF THE TOPICS COVERED IN THESE INTENSIVE DAY-LONG WORKSHOPS:

DEFINING BULLYING BEHAVIOR  
DISTINGUISHING 'KIDDING AROUND' FROM 'BULLYING'  
STREET-WISE TECHNIQUES TO DEAL WITH A BULLY  
DIFFUSING DANGER  
TEACHING STUDENTS VERBAL DEFENSE  
INTERVENTIONS FOR HIGH RISK STUDENTS  
ALTERNATIVES TO TRADITIONAL DISCIPLINARY ACTION

The Anti-Bullying Workshop is only one of the professional seminars offered by The Guardian Angels as part of the 'Teaching Teachers' program. Taught by specialized professionals and individuals with real world experience, this Guardian Angels' seminar fulfills the Federally mandated educational requirements of the No Child Left Behind legislation. For registration and additional information about this and other seminars contact The Guardian Angels Alliance for Education at (212) 545-7676 or [www.guardianangels.org](http://www.guardianangels.org).
